Division of Responsibility: Student Success and Enrollment Management

The College shall comply with the Americans with Disabilities Act of 1990, As Amended (“ADA”) and Section 504 of the Rehabilitations Act of 1973 (“Section 504”). All requests for reasonable accommodations will be considered following the appropriate federal and state laws as outlined in this procedure. Information provided by students is voluntary and strict confidentiality will be maintained.

I. DEFINITION OF DISABILITY

- A. Disability - The term “disability” means, with respect to an individual—
 - 1. a physical or mental impairment that substantially limits one or more major life activities of such individual;
 - 2. a record of such an impairment; or
 - 3. being regarded as having such an impairment
- B. Major Life Activities

II. REQUESTING REASONABLE ACCOMMODATIONS

Students wishing to make a request for reasonable accommodations must self identify by contacting the coordinator of accessibility and student conduct (coordinator) located within the division of Student Success and Enrollment Management. A Request for Accommodations Form must be completed by the student with supporting documentation of the disability as defined by ADA and Section 504 from a qualified professional. Documentation should be current (within the past five years) and will be used to evaluate requests for reasonable accommodations. The evaluation process will include the impact of the documentation on the goals and standards of the programs, course, and/or activity. The documentation should provide enough information for the student and the College to decide what is an appropriate adjustment to make the relevant College programs, courses, and/or activities accessible to the individual. When submitting an individualized education plan (IEP) or Section 504 plan for documentation, the coordinator, or designee may require additional documentation.

Supporting documentation should include:

and;

III. PROCESSING REQUESTS FOR REASONABLE ACCOMMODATIONS

Upon receipt of all forms and documents, within 10 college working days, the coordinator and student will work together to develop an accommodation plan based on the documentation provided and the student's needs. Whenever necessary, the coordinator will contact the instructor, program chair or academic dean to determine what reasonable accommodations may be provided.

Students requesting reasonable accommodations for instruction/class should submit the request form and documentation four weeks prior to the start of the class. Requests made after the start of the term will be processed in a timely manner; however, accommodations are not retroactive.

Students who have not attended for two consecutive semesters will need to complete a new Request for Accommodations Form. New, supporting documentation may be required as well.

IV. INCOMPLETE REQUESTS FOR ACCOMMODATIONS

Incomplete requests for reasonable accommodations will be maintained by the College for one year from the date the request for accommodations form was received. Students enrolling at the College after one year, will be required to submit a new request form and may be required to submit updated documentation from a qualified professional.

V. EDUCATIONAL ACCOMMODATION PLANS

The appropriate accommodations must be determined based on disability and individual needs. Accommodations may include auxiliary aids and services, as well as modifications to academic requirements as necessary to ensure the Student's access to equal educational opportunities. In providing accommodations, the College will consider whether such would lower or substantially modify the essential requirements of the programs, courses, and/or activities offered. Similarly, the College shall consider whether the sought accommodations would fundamentally alter the nature of these services, programs, or activities or create an undue financial or administrative burden on the College.
